DeliveryMAX Delivers Greater Profits

By automating virtually every aspect of their business with DeliveryMAX, OCS and bottled water operators can improve inventory control, increase drivers' productivity, and maximize profitability.

SOFTWARE

- Full support for pre-sell, tele-sell, and off-truck sales or any combination of these
- Service call tracking and history
- Simple to use route scheduling includes route balancer for quick changes
- Financial control
- Delivery invoice consolidation (weekly, monthly and so on)
- Flexible pricing schemes for ease of account set-up and maintenance
- Asset tracking
- User-friendly front-end design simplifies tele-sales order taking
- Drill-down exception reporting and Crystal Reports for data analysis

HANDHELD

The cutting-edge DeliveryMAX handheld was the first to support signature capture for delivery confirmation. With this ruggedized, reliable, Symbol Palm handheld, employees can:

- Take orders on-site
- Print invoices on the spot or in the truck
- Bar-code inventory in the warehouse and truck

Additional handheld features include:

- Full route account list always available for unscheduled stops
- Pick-up and weekend routes are simple to handle
- Standing orders on the handheld can be edited at the account
- Pricing for all products is downloaded to handheld

ADVANCED SALES SUPPORT

- Full product list with pricing and tax structures, by account
- Standing orders
- List of recently ordered products, by account

INVOICING/ACCOUNTS RECEIVABLE

- Receivables aging
- Finance charges
- Rental billing
- Warn sell & hold sell
- Single statement vend commissions/OCS invoice
